6. (Confidential - JGO) Received a call from Herb Roback, House Government Operations Committee staff, who asked if there have been any further developments in the SAT case. After talking to Mr. Houston, OGC, I told Roback that the matter is under hourly consideration but that a final determination has not been made as yet.

7. (Confidential - JGO) Jim Pyrros, Administrative Assistant to Representative Lucien Nedzi (D., Mich.), called in this afternoon from Detroit and asked that he verify with me the status of SAT so that the information could be passed on to Representative Robert Leggett (D., Calif.) After checking with Mr. Houston, I told Pyrros that this matter is under hourly study which should be resolved within the next few days. At my request, Pyrros will hold any action on his part until he hears from me.

8. (Unclassified - GLC) In response to his request several days ago, I advised Joe Kaski, Joint Economic Committee staff, that we had no unclassified information which we could provide him pertaining to Soviet troop strength in the DDR in the period 1961-63 and really could not suggest any unclassified sources for him to check with on this. Kaski mentioned he had talked to some folks at DIA who, contrary to information available in International Institute of Strategic Studies publications confirmed that there had been a "bulge" in Soviet troop strength in Czechoslovakia during this period.
